

Dear Family

ONYX Mid-Atlantic honors International Transgender Day of Visibility.

Held annually on March 31st, International Transgender Day of Visibility celebrates transgender and non-binary people around the world and acknowledges the determination it takes to live openly and authentically.

We stand in support of our transgender brothers, sisters, siblings, friends, and allies who tirelessly oppose the discrimination and violence that many transgender and non-binary people, especially trans women of color and Black trans women, still face on a daily basis.
